(directions sent with your reservation)

## BETSY ROSE:

Singer/Songwriter

The remarkable, soulful, and prolific Betsy Rose is visiting from the west coast. Her songs, from the civil rights movement to Code Pink actions at the Capitol, are now mainstays in the folk lexicon. She will share her newest creations, songs reflecting love, climate, trauma, and healing THAT will fill you with hope and determination to work for our future.

Judith Black, winner of the storytellings' most prestigious award, has shared her tales for adults from the stages of the Smithsonian Institution, to the S. African Art Museum in Cape Town, to the Montreal Comedy Festival. On this night her program will reflect the songs that Betsy sings, bringing them ever closer to your heart.
